

Project Initialization and Planning Phase

Define Problem Statements

Date	2 October 2026
Team ID	12
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student who writes short stories	Turn my story idea into an illustrated comic	I cannot draw and have no layout skills	Existing tools need artistic ability or make single, disconnected images	Frustrated and discouraged
PS-2	A teacher preparing a lesson	Create a visual story for my class quickly	Commissioning art takes days and money	Illustration and layout are separate, manual jobs	Short of time and stressed
PS-3	A hobby writer or content creator	Share a finished comic on social media	The tools give text or images, never a finished file	No single tool links story, art and PDF	Unsure the result will look good enough
