

Problem-Solution Fit

Date	2 October 2026
Team ID	12
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and challenges of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Students, teachers, hobby writers and content creators who want a finished comic but cannot draw.	6. CUSTOMER LIMITATIONS [CL] Little time, no budget, no art or layout skills, laptop with 16 GB RAM, free Gemini quota.	5. AVAILABLE SOLUTIONS [AS] Pros and cons: Hire artist: quality but costly and slow. Image-only AI tools: easy but no story or layout. Comic apps: need drawing skill.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Cannot illustrate or lay out a story; every school or content project needs one (frequent).	9. PROBLEM ROOT / CAUSE [RC] Story, art and layout are separate skills and separate tools; none links them into one file.	7. BEHAVIOR + ITS INTENSITY [BE] Searches free AI tools, tries many prompts, asks friends to draw. Intensity: high near deadlines.
3. TRIGGERS TO ACT [TR] A class deadline, a story idea, seeing an AI comic shared online.	10. YOUR SOLUTION [SL] ComicCraft: one form creates a Gemini outline, story text and Stable Diffusion images for 5 panels, then merges them into a preview and PDF in about 104 s.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Web search, Reddit and YouTube tutorials, AI image sites.
4. EMOTIONS BEFORE / AFTER [EM] Before: frustrated, unsure. After: proud, confident to share.		OFFLINE Classmates, teachers, friends who draw.
